IMPACT
REPORT

Building a
future of
opportunity
for all in
Jefferson
County.

Dear Friends of Jefferson Community Foundation (JCF),

I am continually amazed by the commitment, compassion, and creativity that local change makers bring to our community. In these pages, you will read about many of the great works accomplished by your neighbors and colleagues who partnered with JCF in 2022. These are people motivated by empathy who believe deeply they can make a difference. They dedicate their personal time, skills, and resources to join with others in building a future of opportunity for all in Jefferson County.

One person at a time, JCF connects change makers to each other based on the concerns and passions they share. In this way, JCF weaves a growing network of people and resources that is constantly evolving to respond to emerging opportunities. One group is focused on an affordable housing initiative, while another is working on a new childcare facility. One group is working on youth mental health while another is working on better ways to support local makers. While people may initially unite to address a particular community need or a specific project, often the relationships, connections, and trust they build with each other result in future endeavors that far exceed what they may have initially imagined was possible.

The JCF staff and board are the constant stewards of this agile and ever-changing network over time. Our motto is GIVE, BUILD, SOLVE. GIVE: We help local donors better understand the context of the challenges and opportunities we face as a community, so they can better target their gifts of time, talent, and funds. BUILD: We are long-term partners to local nonprofits, helping them develop the resources and relationships they need to grow stronger. SOLVE: We serve as a hub for people to connect and make good things happen in the world... and who doesn't need more of that these days?

We are deeply grateful to all of you who trust JCF to amplify your impact. For those of you we have not yet met, please be in touch and we can chat about how JCF might be able to help you make the difference you want to be in the world. There is a change maker in each of us and we go further when we go together.
